Integrated IP/Medical/Security/CCTV/Home Automation controller

The result of 40 years of engineering excellence, award winning design and industry leading thinking, Smartlink is proud to present the next generation integrated system combining the best of our technologies into one affordable unit – Mezzo Guardian Integrated Controller

Mezzo Guardian integrates cutting-edge wireless and IP technologies to provide a seamless health/safety and automation solution.

- MEDICAL
- TELEHEALTH
- WIFI ONBOARD
- IP ENABLED
- GPRS/GSM CAPABLE
- NBN READY
- TWO WAY RADIO
- Z WAVE ENABLED
- TWO WAY VOICE
- PERSONAL SAFETY / SECURITY
- IP CCTV
- ENERGY MANAGEMENT

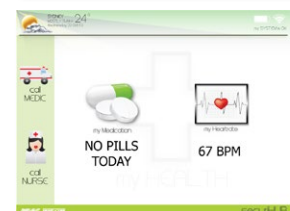

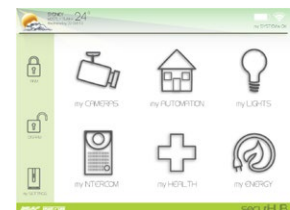

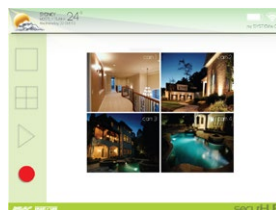

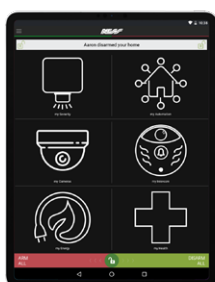

CELLULAR / GPRS

Mezzo Guardian provides cellular backup should your network go down or is switched off allowing for general arming and disarming of your system and SMS notification of events.

YOUR MOBILE HOME

Be at home when you're not at home with Mezzo Guardian and Mezzo Guardian app. Control, view the status and operate connected devices - on the go... anywhere.

Mezzo Guardian's onboard WiFi allows it to be connected to your network wirelessly and combined with the Mezzo Guardian app on a smart phone or smart device,

- Control your security and medical needs
- Turn on and off lights
- Connect to our WiFi intercom door station
- Manage your energy
- Lock and unlock doors
- Monitor your house with ease
- Receive push notifications should there be an event

Z WAVE

With Z Wave as a standard feature in the Mezzo Guardian, control of your home automation has never been more simple.

Add a small Z Wave smart switch to any light switch or powerpoint to turn on, off or dim lights and devices from anywhere, anytime.

The Mezzo Guardian app makes it easy to remotely control your Z Wave door locks and devices.

TWO WAY VOICE & LISTEN-IN

Mezzo Guardian's discreet microphone and high quality speaker allows you to listen in to your premises using your cell/mobile phone by the simple press of a button on your Mezzo Guardian app. Should you wish, start a two-way conversation with anybody in the premises.

TWO WAY RADIO

Mezzo Guardian employs a smart and secure two way radio protocol between the hub and wireless devices for precise feedback on system and device status.

ENERGY MANAGEMENT

Monitor the energy usage in your house using Mezzo Guardian app's informative real-time energy graphs.

Mezzo Guardian can pinpoint the times when your hungriest electric appliances are consuming the most energy and gives you the power to decide when and for how long they should run.

CCTV

View your high resolution Mezzo Guardian WiFi camera at home, at work, anywhere in the world via the Mezzo Guardian app.

Record up to six WiFi cameras with a Mezzo Guardian Premium account.

MEDICAL & TELEHEALTH

Mezzo Guardian has ample provision to expand and interface with numerous Smartlink wireless devices providing a complete medical and Telehealth solution.

Mezzo Guardian also tightly integrates with Smartlink Nurse Call and Aged Care personal safety products for the Medical, Security and Aged Care industries.
